25X1	On 9	April, the Kaval	lorie Schu	le in Krampnitz	near Potsdan (N	53/Z 63) was	
25X1	only about 50 percent occupied by a unit whose personnel were red-bordered black epsulets with artillery insignia, tank insignia and motor transport						
25X1							
25X1	returned. Four T-31/85 tanks, were parked in front of a pank shed in the southwestern section of the installation on Tapril. About 500 troops were engaged in field training with 2 T-31/85 tanks and 1 SP						
25X1	gun in the terrain north of the Kavallerie Schule. Vehicles drove into the installation						
25X1	through the northwestern entrance. On 9 April, about 50 soldiers drilled and about 100 other soldiers practiced firing with pistols in the eastern section						
25X1	of the billeting area. Five T-31/85 tanks, were parked in front of a tank shed in the southwestern section. About 20						
25X1	tank mucks stood in the northwestern section. About 500 troops in the terrain north of the installation launched a practice attack toward Doeberitz, supported						
25X1	by li	by h N-3h/85 tanks and 2 SP guns. Truck drove into the installation through the eastern entrance and trucks					
25X1		through the northwestern entrance. *					
25X1 *		Constent. For i	nformation	on the departur	e of units from	Kramonitz toward	
25X1	nauen, see a previous report he units concerned						
	for field exercises. Observations between 17 and 19 March 1952 revealed that components of the 10th 3ds Tank Div were loaded at the Boeberitz and Justermark						
	railr neede	coad stations for ed to clarify as	shipment to whe t her	to Letzling Heat the units which	h. Further info	rmation is April 1952 re-	
	needed to clarify as to whether the units which moved out on 4 April 1952 returned to their quarters in Framphitz from the undetermined training area or whether they will go directly to Letzling Boath from their present training
